Have you seen the light? Get Creative!
A fresh approach to retail

The usual way

- Take a product, put it on a shelf.
- Hope your customer happens to pick it up.
- Let’s say they don’t.
- In three months time you sell it for half price.
- It still hasn’t sold so you discount another 25%.
- You have possibly lost time and a lot of money.

The Creative way!

- One of our friendly merchandisers installs our stand.
- We plug in the screen.
- Even before we have left you have made your first sale.
- After 2 weeks you have sold a whole stand full.
- You re-order again and again.
- Sales eventually slow down.
- Our friendly merchandiser calls again.
- He changes the film on the screen and sets up a new product on the stand.
- You still have some of the original product left.
- Our merchandiser writes you a credit note and takes the old stock away.
- Now that’s a far better outcome.

We call that Creative selling!

The following pages highlight many of the fast selling products in our Garden, Home and DIY ranges but don’t just take our word for it, why not try a TV promotion in your store today for six weeks on a no obligation trial? You’ll be Amazed!
This multi-function broom is suitable for use on laminate floors, garden decking, patios, paving and even carpets. It features a telescopic handle and the broom head incorporates a rubber blade which can be used as a squeegee for cleaning windows, conservatories and other difficult to reach glazed areas.
